# ALL ABOUT THE PEOPLE'S PARTY OF DOMINICA (PPOD)

Founded in Summer 2015, PPOD grew out of simple discussions about the current state and direction of Dominica, into what is now a viable third political party. PPOD is about progressive ideas which manifest themselves through policies and good governance, rather than simply be written in a theoretical philosophy of manifestos. One of PPOD's major functions is to continuously promote the economic and social interests of all Dominica's citizens. We seek to unify the people of Dominica so as to facilitate the development of policies favorable to all of our common interests. To be able to enact those policies, we plan to organize and persuade voters to elect future MPs so as to obtain a majority of seats in parliament. We

will make our appeal to as many different groups as possible in every constituency. Our aim is to organize large groups of people under an umbrella of ideas (a platform) and focus on the development of those ideas and goals. Our Policy platform outlines PPOD's positions on a variety of issues and the actions its leadership will take to implement them once elected. The People's Party of Dominica (PPOD) has a responsibility to the Commonwealth of Dominica. We pledge to serve with integrity and to make progress everyday in actions, not just in words. PPOD promotes equity, participation, pluralism, transparency, accountability and the rule of law in a manner that is empowering, effective, efficient, and enduring.

## KEY ISSUES:

PPOD will provide a platform by which Dominican citizens and local companies can contribute to improving the economy, to build a successful future for themselves and the wider society.

PPOD has adopted the 17 Global Sustainable Development Goals and has an amazing plan to make them a reality for us here in Dominica. This is why on every logo we own, you see 17 colors representing each of those goals. In Dominica, we are faced with an urgent need to increase employment and educational opportunities, and therefore upward economic mobility. We vow to implement policies that will boost shared prosperity, reduce the income gap and place a sharper focus on economic diversification.
